Please find below and/or attached an Office communication concerning this application or proceeding.

The reply filed on 3/6/03 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): the Sequence Rules have not been complied with. See 37 CFR 1.111. Applicant argues on pages 4-5 of the response that the sequences set forth in Appendices A and B "is readily identifiable with its corresponding SEQ ID NO." In response, applicant is reminded that 37 CFR 1.821(d) requires that:

"Where the description or claims of a patent application discuss a sequence that is set forth in the "Sequence Listing" in accordance with paragraph (c) of this section, *reference must be made to the sequence by use of the sequence identifier, preceded by "SEQ ID NO:"* in the text of the description or claims, even if the sequence is also embedded in the text of the description or claims of the patent application. " (emphasis added by examiner)

The appendices are part of the description, therefore sequences recited in the appendices must be accompanied by SEQ ID NO's. In addition, it is noted that both nucleic acid and amino acid sequences are "identified" by the same Identification Code in the appendices. As the same Identification Code appears to be correlated to multiple SEQ ID NO's, EACH (individual) sequence listed in the appendices is NOT "readily identifiable" by its SEQ ID NO.

Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marjorie A. Moran whose telephone number is (703) 305-2363. The examiner can normally be reached on Monday to Friday, 7:30 am to 4 pm EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Woodward can be reached on (703) 308-4028.
